

WASHING MACHINE STATUS CHECKER

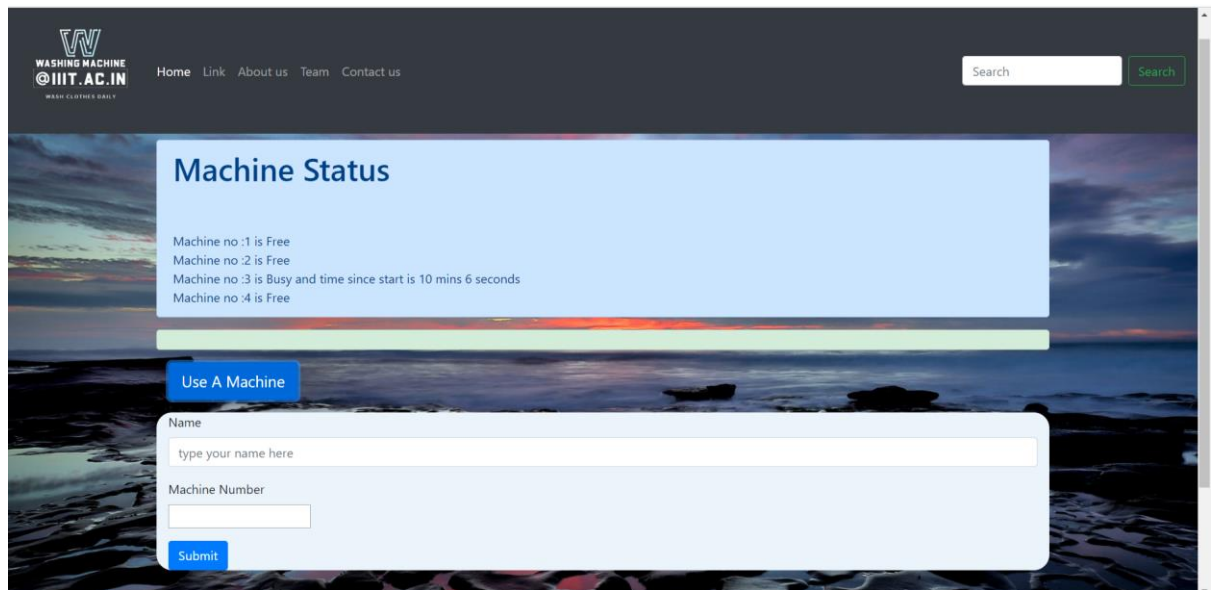

Our project is a simple webapp where you can check which machines placed in Bakul Niwas are free and which are busy.

Homepage:

- if you want to use a machine , you can simply submit which machine you are using and the database gets updated.
- Live time since the machine was switched on is also shown : “ time since start“

Why this project?

I used to see many people coming from fourth-fifth bringing their LOADED BUCKETS FULL OF CLOTHES and checking whether the machine is free or not and then realising that some machines were busy and some were out of service.

Also , I live on ground floor so people used to crowd my room so that they could wait until the machine was free.

Using my webapp they can easily check how much time is left on each machines.

Also, the timers on machines after 40 mins are reset to 0.

So you don't have to manually tell that I am done with using the machine.

Database:

		machinenumber	status	timesince	start_time	isworking
<input type="checkbox"/>	 Edit  Copy  Delete	1	0	0	1590320896	1
<input type="checkbox"/>	 Edit  Copy  Delete	2	0	0	1590321971	1
<input type="checkbox"/>	 Edit  Copy  Delete	3	0	0	1590327119	1
<input type="checkbox"/>	 Edit  Copy  Delete	4	0	0	1590324466	0

Regarding the code:

I have used php for backend and frontend is supported using bootstrap.

I have used MYSQL database.

Everytime someone refreshes the page, the variables in the table of database are changed w.r.t. the current time, so the time spent variable gets updated....

I had hosted the site on <https://www.ecowebhosting.co.uk/>

This is the url of the hosted site:

You can use and test the site....

<http://codeswordeditoronline-com.stackstaging.com/WM-status/>

Mail us from here:

The screenshot shows a contact form titled "Get in touch!" on a website with a dark header. The header includes the logo "W WASHING MACHINE @IIIT.AC.IN", navigation links "Home Link About us Team Contact us", and a search bar. The form itself is light green and contains the following fields: "Email address" with a placeholder "Enter email", a note "We'll never share your email with anyone else. We will also send you a copy.", "Subject", and "What would you like to ask us?". A blue "Submit" button is at the bottom of the form. The background of the page is a scenic image of a beach at sunset.

Our team:

The screenshot displays the "Our team" section of the website. It features three team members, each with a cartoon illustration and a bio. The header is identical to the previous screenshot. The team members are:

- Shaantanu Kulkarni**: I'm currently pursuing ECE in IIIT Hyderabad. I love to learn new things everyday and implement them to improve my skills. I love to code and i have keen interest in startups.
- Manoj sirvi**: Hii everyone i am purchasing my b.tech degree in C.S.D in iiit-h. I love to get knowledge about ancient history.I also like to know about astronomy and playing pc games
- Shreyansh verma**: Hello,I am shreyansh Verma,I am from Patna ,Bihar.Currently I am pursuing Btech in CND in IIIT Hyderabad.My hobbies include Competitive Programming,speed cubing,plane spotting.Also in my free time I like to read about different countries.

A blue "Learn more" button is located at the bottom center of the team section.
